

YOU CAN BE A HERO TOO!

The Knights' Party is an organization that is full of heroes! However, we aren't talking about the basketball hero, the movie hero, or the latest music hero. We are talking about average people. What makes an average person a hero and why do we claim to have so many heroes in our ranks?

When we refer to heroes, we are referring to men and women with Christian character, a sense of patriotism, and a love for your children. Sometimes it isn't easy being a hero and a hero isn't always a hero to many, although they should be. Men and women in The Knights are honest and care about the future of our nation. They still know what it means to have racial integrity. They realize that the youth must be protected and taught well because our future will one-day be in their hands. Sometimes those who don't understand the Christian faith and the faith of our ancestors will attempt to persecute those who still hold strong to the "old time religion". Men and women who are demonized by the liberal anti-Christian entertainment media, yet still remain steadfast in their conviction for Jesus Christ and His teachings should be held in the highest regard and are heroes.

No, you may not see them on TV or flashed across the screen receiving a prestigious award, but they are heroes just the same and more so; whether it is the business man who is committed to the ideals of western Christian civilization, the teacher who takes a stand against atheism in the school, or the mother who is shaping forever the future of her children – children who will be in the forefront of restoring Biblical principles, Christian conduct, and honest compassion throughout the land. There are many such men and women in The Knights' Party. And you can be one too!

**THERE LIVES IN EACH OF US A
HERO AWAITING THE CALL!**
