

Grisly Bloody Murder

Christian and Newsom had gone on a date at a local restaurant on Saturday, but did not return home. During their drive, the couple was "hijacked, bound and blindfolded and taken back to Lemaricus Devall "Slim" Davidson's rented house on Chipman Street." Because the killers ditched Christian's SUV just a few hours after it was stolen, it has been suggested that the primary motives of the perpetrators was their desire to kidnap, instead of a simple torture, rape, and murder, hijacking. According to Officer Todd Childress, "Newsom's body was wrapped in a 'sheet and/or had been shot at least three times. He also notes that Newsom's shoes, socks, identification, and iPod were missing. His body had been burned." Christian's parents found her abandoned Toyota 4-

Runner two blocks away from the Chipman Street house on Monday, with the help of her mobile phone provider. An envelope recovered from the vehicle yielded fingerprint evidence that led police to Lemaricus Davidson and 2316 Chipman Street. When police went to the address on Tuesday, January 9, they found the home unoccupied and Christian's body in a trash can in the kitchen. "They did some really nasty things to this lady," said Chief Deputy U.S. Marshal Rich Knighten of the Western District of Kentucky. She had been dismembered, her body found in five separate trash bags. According to the Grand Jury Presentment, Christian was raped vaginally, orally, and anally, and Newsom was raped anally. Vanessa Coleman, (pictured below to the right who decided to get in on the action the other four men had started) told

gone on a date at a local restaurant on Saturday, but did not return home. During their drive, the couple was "hijacked, bound and blindfolded and taken back to Lemaricus Davidson's rented house on Chipman Street." His body had been burned." Christian's parents found her abandoned Toyota 4-

Was this a hate crime? Many say, "Yes". But doesn't violent crime like this always stem from hatred. These monsters to the right already had the car they "carjacked" and if not inspired by pure anti-white hate would have either just simply shot the young couple dead or left them and taken the car and money. No! All evidence points to the fact that the "fun" of torturing the white man and woman was the real motive. And even if it wasn't - shouldn't the fact that non-white areas of the nation are extremely dangerous, in suburbs where nonwhites move violently increases dramatically, and in schools across America white kids are brutalized by roving non-white gangs, be enough to issue a public alert warning the general population about the increased risk of rape, assault, or murder in the presence of non-whites?

It's sad to say, but this lovely young couple, while experiencing excruciating torture before being snuffed out, is just one example of the brutality that hundreds of thousands of whites have been subjected to. Don't think this won't affect you or your family. Wide spread white suffering is happening NOW and it

Was this a Hate Crime?

police that "she witnessed Christian's mouth being cleaned with a bottle of some type of cleaner," in an attempt to remove DNA evidence. Coleman also said that she had seen "clothes that were stained with blood and smelled of gas being put in the washing machine at the house." Newsom's body was found adjacent to railroad tracks in East Knoxville the next afternoon.

"But have you seen anything on the networks, The New York Times, The Nashville Tennessean? I haven't. I wonder if it could be that the five perpetrators who have all been arrested were black. If this had been white on black crime Al Sharpton and Jesse Jackson and their ilk would have descended on Knoxville like a swarm of angry bees. I guess the lack of TV cameras discouraged them. A free press is one of our most precious rights and a selective press one of our most dangerous realities. To suppress or ignore one of the most hideous murders of the decade is asinine and reeks of political correctness and agenda driven formats."

Music Legend, Charlie Daniels – quoted from his website (later removed)

This Crime and Your Community

What does this crime in Tennessee have to do with you and your community? It's simple. You or your family could be next. Whether you are white or non-white – the violence coming out of the non-white areas of America has reached epidemic proportions. We aren't joking. Black males are the greatest threat to other black males and black females. The misogynist views of the fast growing non-white Hispanic population and the resulting hideous crime wave sweeping the nation against women and girls should have everyone on edge and looking over their shoulder. The anti-family views of the Muslims (from any country) and the radical ideas of many in the Asian community such as the Hmongs and migrants from Africa, many who promote female circumcision and very anti-women sentiments, should serve as a warning to ALL God fearing Americans. Will it be you or your sister, daughter or mother who is raped? Will your son, father, or brother be brutalized and begging for the sweet release of death?

Could it Get worse than Rape and Murder?

Its hard to imagine that it could get any worse than being raped and murdered, but what if no one cared! Isn't that the ultimate insult. Yes, you may think to yourself that the perpetrators have been caught and they will soon pay for their crime and justice will have been done. What if an extremely large percentage of the non-white residents of the U.S., were statistically proven to be violent prone? What if you weren't properly warned of this dire threat? What if it happens so often, that it just doesn't make the NEWS like white on black crimes do? What if the rape and murder of your loved one – because of the race factor – is so common that hardly anyone hears about it. Was this couple nothing but a blip on the radar screen of life or are they in fact casualties of a race war against whites. What do you think?

Media Blackout

This crime is not just a story about a couple in Tennessee. This story is about the suffering and abuse that white people are being subjected to in town after town across this nation. It is only going to get worse. This issue becomes local when YOU make it a local issue. Contact your local media. Send a copy of this leaflet to your TV, radio and newspaper outlets. Post this leaflet on bulletin boards What about the white woman dragged to death behind her car at the hands of black thugs or the elderly white man beaten and set on fire in Chicago by blacks. What about the Duke LaCross Rape case? On the same day that the completely innocent white teens were vindicated of any wrong doing – a stupid comment by white apologist Don Imus gets all the attention for two weeks. No apologies from Jesse Jackson or Al Sharpton who marched through North Carolina wrongly accusing these white college students. Don't let this couple's death have been in vain – Let EVERYONE Know about it – Its the RIGHT think to do!

Did you know that after the Asian student at Virginia tech went on a mass killing spree, the Asian Journalist Association, issued a memo to all member reporters and media editors to NOT MENTION THE RACE OF THE KILLER – because he was Asian?

Did you know that radio shock jock, Don Imus' comment about the Rutger Girls ball team was virtually ignored until NBC's Al Roker took credit in his blog for rallying all of the black reporters and media editors of the Black Journalist Association to make the comment an issue and to get Imus fired!

Did you know that the White Journalist Association issued not one single statement at all about the Channon/Christian rape/Murder? Why – because any decent journalist who dared to start a White Journalist Association would be blasted as a hater and bigot? No press release – because there is NO association for white journalists
