Stop White Genocide

The demographics in America are shifting dramatically and Western Christian civilization is under attack. We don't want you to hate anyone because we believe all races have the right of self-determination. However, white Christians are being denied this basic right. White people are a worldwide minority and there are programs of genocide against white children. We are delivering a message of hope and deliverance to the children of the Republic. Don't let genocide happen. Contact the National Office at 870-427-3414 or write to PO Box 2222, Harrison, AR 72602
